CAT 2026 Overview

VARC: The VARC section measures English proficiency skills.

DILR: The LRDI section tests the logical reasoning and data interpretation capabilities.

Quant: The Quantitative Aptitude (QA) evaluates the mathematical aptitude.

CAT 2026 Exam Pattern

The Exam Pattern for CAT 2026 is as follows:

Section	Number of Questions	Marks	Duration (min.)
VARC	24	72	40
DILR	22	66	40
QA	22	66	40
Total	68	204	120

The Pattern for CAT 2026 is going to be **almost same as CAT 2025** with few minor changes. Each **correct answer gives you +3 marks**. And, **each incorrect response will incur -1 mark**.

Question Type: CAT consists of **Objective Type Questions** (MCQs) with multiple answer choices and **TITA** (Type in the Answer) questions where you enter the answer directly without options, and there is **no negative marking for TITA questions**.

DAILY ARTICLES

CAT Daily Articles

Welcome to CAT Daily Articles, your one-stop solution to mastering the VARC section of the CAT exam. Reading these articles will help you improve your comprehension skills, enhance your vocabulary, and develop the critical thinking abilities needed to excel in the VARC section. Additionally, reading diverse articles from different genres can enhance your familiarity with various subjects, ensuring you don't feel overwhelmed by topics like philosophy, psychology, or history. Regular exposure to these topics makes you more comfortable with different writing styles and terminologies, allowing you to approach any passage with confidence.

Today's Articles (17th-Feb-2025)

 <p>Philosophy • 20 Minutes Beyond Casualty</p>	 <p>Politics • 10 Minutes The courts separate democracy from autonomy: WSJ Trump daily news</p>	 <p>Economics • 15 Minutes Business Behavior</p>

PREVIOUS YEAR PAPERS

Practising previous year papers is one of the **smartest ways to prepare for any entrance exam**. These papers give us a clear understanding of the **exam pattern, question types, and difficulty level**. By solving them, we can identify the most frequently tested topics, allowing us to focus on **high-weightage areas**. They also help us develop better time management skills, as we get used to solving questions under real exam conditions. More importantly, previous year papers boost our **confidence** by giving us a realistic idea of where we stand and what areas need improvement. Analysing past trends also helps in predicting possible question patterns, giving us an edge in our preparation.

Cracku provides previous year papers for **CAT, XAT, CMAT, SNAP, NMAT, SRCC GBO, and CUET PG**, making it easier for aspirants to practice with actual exam-level questions. The papers can be attempted in **sectional format for targeted practice or as full-length mocks to simulate the real exam experience**. For those who prefer offline revision, Cracku also allows **downloading these papers in PDF format**. The real exam interface ensures that we get a hands-on experience before the actual test, helping us fine-tune our strategy and improve our performance.

If we want to boost our preparation and maximize our scores, solving previous year papers is a must!

The screenshot displays two panels of previous year papers. The left panel is titled 'CAT 2024 Previous Paper with Solutions' and lists three slots: Slot 1, Slot 2, and Slot 3. Each slot has a 'PDF' button (red) and a 'TAKE TEST' button (blue). Below each slot name are three filter buttons: 'VARC', 'DILR', and 'QA'. The right panel is titled 'CAT 2023 Previous Paper with Solutions' and also lists three slots: Slot 1, Slot 2, and Slot 3, with the same 'PDF', 'TAKE TEST', and filter buttons.

OMETs

OTHER MANAGEMENT ENTRANCE TESTS

While CAT is the most popular MBA entrance exam, OMETs (Other Management Entrance Tests) like **XAT, NMAT, SNAP, CMAT, SRCC GBO, and MAH-CET** open doors to many top B-schools across India. These exams provide diverse opportunities, allowing us to apply to multiple institutes and increase our chances of securing admission into a great MBA program.

Each OMET has a **unique exam pattern and requires a different strategy**. For example, XAT focuses more on decision-making and verbal ability, NMAT tests speed and accuracy, while SNAP and CMAT require a balanced approach across sections. By preparing for multiple exams, we diversify our options, reduce dependency on a single test, and enhance our adaptability to different question styles.

At Cracku, we provide **full-length mocks, sectional tests, and practice sets tailored for XAT, NMAT, SNAP, CMAT, SRCC GBO, and MAH-CET**. Our mocks are designed to closely simulate the actual exams, helping us improve speed, accuracy, and test-taking strategy. Sectional tests allow focused practice, ensuring we strengthen our weak areas before the actual exam. We also provide previous year papers for your practice.

If you aim to **secure a seat in a top B-school**, preparing for OMETs along with CAT is a smart move. **More opportunities mean better chances of success!**

CAT 2025 - 99.97%ile

My experience with Cracku was phenomenal. Right from their interface, everything was just the way a CAT student wants it to be. The difficulty was challenging which helped me to tackle CAT 2025. The live mock attempts by Sir and Ma'am were motivating and very encouraging. I can definitely say that I would not perform as well without the help and guidance of Maruti sir and Sayali ma'am. Highly recommend it for future aspirants!

In the CAT prep journey, the right tools make all the difference. For me, Cracku has been a vital part of the toolkit. I specifically relied on their daily targets. The quality is top notch and it's the best way to stay consistent. The quiz section rarely pushes your logic with exam-level questions. What I find most helpful is the video solutions; they break down complex steps much faster than a text explanation ever could. If you want to sharpen your prep with high-quality structured content, definitely give Cracku a look. Good luck!

CAT 2025 - 99.95%ile

Cracku mocks played a very important role in my preparation. They helped me clearly understand the actual exam pattern, question types, and difficulty level. By regularly attempting these mocks, I became familiar with how the paper is structured and how time should be managed across sections.

Cracku has been central to how I've structured my CAT preparation. Solving previous year papers and DashCAT mocks here feels close to the real exam, both in difficulty and in how mistakes are analysed. What helped me the most was the Daily Targets feature—it brought discipline to my day and removed ambiguity about what to do next. The free resources are genuinely useful, and the dashcats have been worth the investment.
